VOLUNTARY ANNOUNCEMENT
STRATEGIC COOPERATION AGREEMENT WITH FDT-AI LIMITED

This announcement is made by BOCOM International Holdings Company Limited (the “**Company**”), together with its subsidiaries (collectively the “**Group**”), on a voluntary basis.

STRATEGIC COOPERATION AGREEMENT

Subject Matter

The Company is pleased to announce that on 30 November 2017, the Company entered into a strategic cooperation agreement (the “**Strategic Cooperation Agreement**”) with FDT-AI Limited (“**FDT-AI**”). Pursuant to the Strategic Cooperation Agreement, the Company and FDT-AI will initiate strategic cooperation primarily in the fields of artificial intelligence and big data through in-depth cooperation, joint exploration and sharing of resources, including but not limited to the development of:

- (1) intelligent personalised investment research services to enable the Group to better understand the needs and risk appetites of its clients through analysing and studying their behaviours based on past transaction records and hence to provide more tailor-made investment advisory services to such clients;
- (2) intelligent transaction systems to explore profit opportunities in the market in an intelligent, prompt and accurate manner and assist completion of transactions through making analyses, simulations and forecasts on various market patterns and changes;
- (3) intelligent asset management systems to provide optimized financial products matching and recommendation to clients; and
- (4) artificial intelligent customer service systems.

The initial term of the Strategic Cooperation Agreement is two years and upon the expiry of the initial term, the Strategic Cooperation Agreement will be renewed for another two years unless written notice of non-renewal is given by one party to another party.

Reasons for and benefits of the Strategic Cooperation Agreement

The Company is of the view that the strategic cooperation pursuant to the Strategic Cooperation Agreement will bring about complimentary effects to the parties by leveraging on the technological advantages and talent resources of FDT-AI in the fields of artificial intelligence and big data as well as the competitive strengths and position of the Company in the financial industry through in-depth strategic cooperation, joint exploration and sharing of resources based on the principles of building on existing strengths, integrating resources to create greater commercial value, promoting mutual benefits and achieving win-win results.

Information on FDT-AI

FDT-AI, a member of FDT (Financial Data Technologies Ltd.) group, is an artificial intelligent based fintech company in Hong Kong led by one of China's renowned and innovative bankers, Dr. Ma Weihua. The aim of FDT-AI is to enhance financial institutions' core competitiveness. With the research team's scientists and engineers coming from prominent global high-tech and financial companies, FDT-AI is committed to building advanced and intelligent solutions, driven by artificial intelligence, big data, cloud computing and mobile technologies.

To the best knowledge, information and belief of the board of directors of the Company having made all reasonable enquiries, FDT-AI and its ultimate beneficial owners are third parties independent of the Company and its connected persons (as defined in the Listing Rules).
