

1. External checking

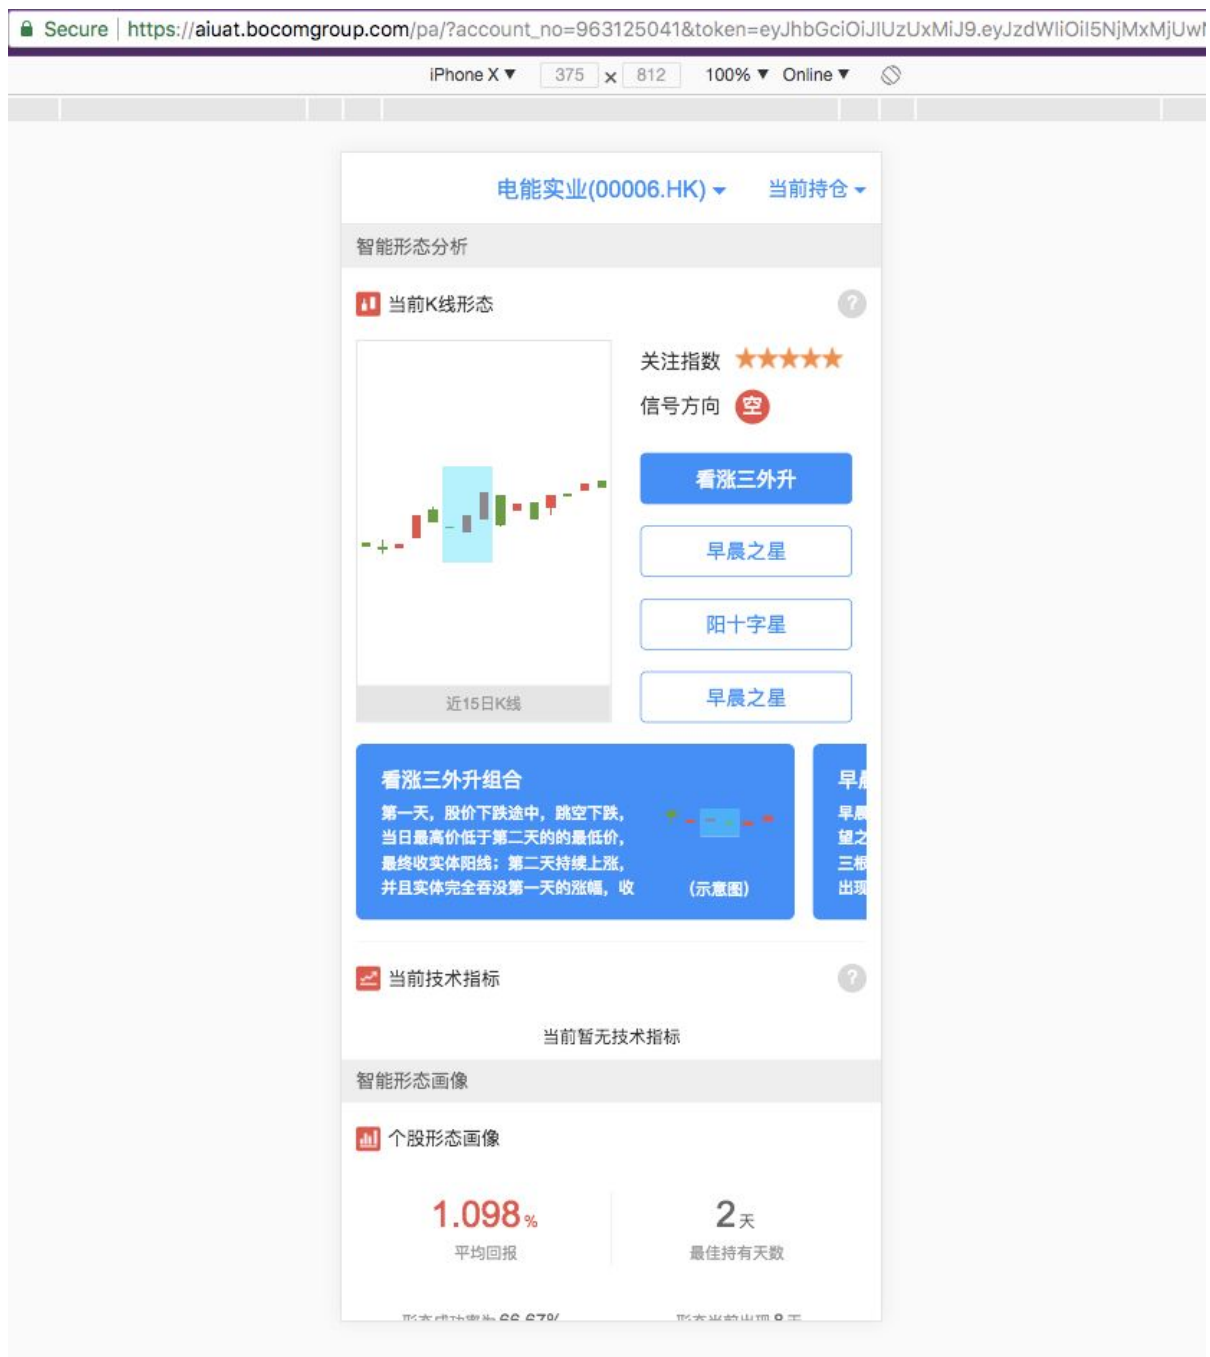

- Introduction Page is up when accessing the root URL(<https://ai.bocomgroup.com> for Production or (<https://aiuat.bocomgroup.com> for UAT), it will redirect to the Introduction page and it should be available:

- Pattern Page is accessible
 - 1) generate token for test account

```
andy@andyhu:~$ curl -X POST -d '{"username": "029005198", "goldenkey": "sun5kong"}' \
> -H "Content-Type: application/json"\
> http://47.52.174.33:8080/api/v1/login
{"data": "eyJhbGciOiJIUzUxMiJ9.eyJzdWIiOiIwMjkwMDUxOTgLCjleHAiOjE1MjIzMTEyMjEsImhhdCI6MTYwNjQ1ODk1LmVudCIsInR5eSI6ImlhbmRlbnQifQ=="}
```

- 2) using token and test account to access Pattern Page

- The Date in Pattern Page is up to date
when accessing the Pattern Page, check the Date information from the bottom of the page, to see if it's up to date

- The loading speed of Pattern Page is in acceptable range
when loading the Pattern Page, calculate the elapsed time to see if it's in acceptable range

2. Internal checking

- Service Port
Port: 9090, 9091, 10017, 10022 is up on AliYun machine

```
root@bcom-1:~# telnet localhost 9090
Trying 127.0.0.1...
Connected to localhost.
Escape character is '^]'.
Connection closed by foreign host.
root@bcom-1:~#
```
